

SAMPLE EMAIL

Dear Colleague,

The NCI Center for Global Health is conducting a survey to gain a better understanding of the current landscape of cancer therapeutic clinical trials in low- and middle-income countries (LMICs), as defined by the World Bank, and learn about clinicians' thoughts and opinions regarding concrete steps that might be taken to advance clinical trials in LMICs.

On behalf of the NCI Center for Global Health, we invite you to take this, brief 15-minute survey. As a clinician who may have experience participating in at least one cancer therapeutic clinical trial in an LMIC, your input will help inform strategic priorities for CGH. The survey is available in English, Arabic, Portuguese, Spanish, and French. The survey will be anonymous. If published, the results will be presented in an aggregated, de-identified format. There is no compensation for your participation.

[Take the survey now: https://bit.ly/CTCTLMICs](https://bit.ly/CTCTLMICs)

You are also encouraged to share the survey within your networks.

If you have any questions, visit the [CGH announcement webpage](#) or reach out to ncicghclintrialsinlmic@mail.nih.gov. We are grateful for your support in this data collection and dissemination effort.
